

METHOD FOR SMALL GROUP SHARING

1. The facilitator of each group invites the members for a short silence and prayer
2. The facilitator will request someone to record important points in the sharing for the big group sharing that will follow.
3. The facilitator invites the group to read the cases on hand in silence. Ask them to choose one or both cases as starting point for sharing.
4. The facilitator invites anyone to start sharing and from then on let the sharing flow naturally.
5. Feedbacks to individual sharing may be allowed but keep time and give chance to others. It would be enriching to listen to each one.
6. Collate important points that surfaced during the sharing for reporting to big group
7. Big Group sharing: Feedbacks to clarify, affirm or add/enrich a point on hand are welcome. Be aware of the time limit.
8. Synthesis
9. Concluding prayer
